Skills

Programming Languages

- C, Core JAVA

Front End Technologies

- HTML, CSS, JAVASCRIPT, REACT-JS

Back End Technologies

- NODE-JS

Database

- MongoDB, MYSQL

Non - Technical Skills

- Teamwork, Time management.

Certifications

- AWS Cloud Practitioner [↗](#)
- Red Hat Certified Enterprise Application Developer [↗](#)

Projects

1, Star Events [↗](#)

- Developed features including virtual login/signup, password recovery, and a dashboard using HTML, CSS, and React.js.
- Worked on integrating Google Maps and a feedback system, resulting in a user-friendly platform that boosted event management efficiency.

2, Budget Tracker Server-side Application [↗](#)

- Created an Expense Tracker with React, focusing on user authentication, CRUD operations, and secure data storage using MongoDB.
- Deployed the website on Vercel, enhancing accessibility and reliability for users.

3, Weather Application [↗](#)

- Designed and integrated a user interface with HTML, CSS, and React, connecting to the OpenWeather API for weather details.
- Delivered an efficient, state-specific weather forecasting platform, deployed on Netlify.

Accomplishments

Research Paper [↗](#)

- Title: "Unveiling Hidden Ties: Exploring Community Structures in Social Networks Using Advanced Graph Analytics"
- Published in 2023-ICRASET
