CAREER OBJECTIVE

Computer Science graduate with hands-on Knowledge in **Quality Analyst (Manual Testing)** and **Front End Development**. Skilled in programming, problem-solving, and building real-world applications. Eager to grow as a Software Developer by continuously learning new technologies and gaining practical experience while leveraging QA and development knowledge to deliver high-quality software solutions.

SKILLS

Languages: C, Core Java, Python
Frontend: HTML, CSS, JavaScript, React.js, TypeScript
Backend & APIs: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL
Core Concepts: Data Structures & Algorithms, OOP, DBMS
Testing & Automation: Manual Testing, Test Case Design, Bug Tracking, Selenium, Playwright
Tools: VS Code, Eclipse, Git, Postman, JIRA

WORK EXPERIENCE

WebileApps

Jan 2025 – Present

Vijayawada, India

- Completed 6-month Software Development Training (Jan–Jul 2025) on frontend and backend technologies.
- Worked as a Frontend Developer (Jul–Sep 2025) building responsive web interfaces.
- Currently working as an Associate Quality Analyst performing manual testing and defect tracking.

Key Responsibilities:

- Analyze requirements and design test cases.
- Perform Functional, Regression, Smoke, Sanity, UAT, UI, Responsiveness and Cross-Browser testing.
- Identify and track defects using Zoho and collaborate with developers to verify fixes.
- Manage testing activities across multiple client projects.
- Assisted in Scrum activities including stand-ups and sprint tracking.

EDUCATION

B.Tech, Computer Science, KL University

CGPA: 9.5 | 2021 – 2025

XII (MPC), Aditya Junior College

90.5% | 2019 – 2021

X, Sri Chaitanya Techno School

CGPA: 9.8 | 2018 – 2019

PROJECTS

Library Management System - Built a system for managing book borrowing, returns, and account management with an admin dashboard for tracking book requests. Technologies: React, MySQL. ([Project Link](#))

Budget Tracker Application - Developed authentication and CRUD functionality for managing user budgets and expenses. Technologies: React, MongoDB.

Weather Application - Developed a React-based weather dashboard using OpenWeather API and deployed it on Netlify. ([Project Link](#))

CERTIFICATIONS

- AWS Certified Cloud Practitioner ([Certificate Link](#))
- Red Hat Certified Enterprise Application Developer ([Certificate Link](#))

CODING PROFILES

LeetCode : [harshini38](#) – 200+ problems solved.

CodeChef : [harshini_38](#) – 200 problems solved.
